

Nuria Costa Elorza

European volunteer

Strong interest in education and pedagogy

Positive attitude

English, French and Spanish speaking

Spanish

Who am I ?

My name is Nuria and I have just graduated from the IB Diploma program in Spain. I am very excited to have made the decision to take a gap year before university! I can't wait to improve my French, travel, live away from home and meet lots of new people! I am a very open minded, loving girl who is really into arts and crafts and kids. I have grown up in a bilingual environment so I speak both Spanish and English fluently :)

Why the Tzama Ecole Project in France?

When I first saw the project, I immediately felt Tzama was a unique school for its philosophy and core values. I love being outdoors and I am super interested in the Montessori pedagogy. I also feel very in line with all of the school values so I think this project is perfect for me!

What is your favourite quote that inspires your daily work?

"If you don't like something, change it. If you can't change it, change your attitude." - Maya Angelou

“Things turn out best for the people who make the best of the way things turn out.” - John Wooden

I believe optimism is key in life!

What does Montessori mean for you ?

To me Montessori means considering the children as independent learners that are able to discover by themselves.

It also means nurturing the love to learn about the world around us.

What are your talents or tools you would like to share and use within the school and the association ?

I love to dance, do arts and crafts, read, bake, do sports and meditate!

I am a very international person and would love to do workshops to promote different cultures with the children. I would also love to help with music and movement activities and creative tasks!

I will of course help with the English language too :)
